THE VOICE OF NEW YORK. The Democrats of New York join in the hurrah for CLEVELAND." There was noth-

ing also for them to do. The platform is a sharp setback for thos who counselled silence, and something of a disappointment to those who advised speech. Three lines of concrete approval of the President's Message and the Muzza bill would have been worth more than all the glittering

The attendants at the Winchester flats stated to THE WORLD reporter that both FER-RIS and HATCH frequently visited Mrs. Scoyang at her apartments, in the spring of 1887. On one occasion the phenomenally meek husband came home at 2 o'clock in the morning, found] HATCH in his room, and waited on a bench in the hall until 6,30 o'clock for him to come down, confiding his shame to the janitor, as he did last week to the policeman. Haron's visits were frequent, and his "en ticement" was the old, old one of the rakish

The only "mystery" left is as to what special fear induced the unfortunate man to jump. In his befuddled condition, a mere impulse to get away without detection would have been enough.

TWO DIFFERENT FATES.

An Incident in a Fireman's Life.

Chief of Eighth Battalion, F. D. N. Y.

REMEMBER rather "'rescue" which was made while I was connected with Hook and Ladder Truck No. 7. A man came to the engine-house one afternoon, and brought a "still." It was a little

out of the usual order of still alarm.

"Can't some of you come over to the brewery and save a man who is in danger? he asked.

"What is the matter? Is the place on fire?" "No. But there is a fellow who wants jump out of the fifth story window of the

brewery," the man answered. "Why, what is the matter with him? If he wants to jump, why hasn't he jumped? And if you have kept him from jumping so far, why can't you keep it up and prevent him from jumping at all ?"

"Why, he's 'loony,' and we're afraid to go near him for fear he'll jump. You may know how to get him away. Won't you come ?"

THEY GRABBED HIM BY THE LEGS. It was an odd sort of thing for firemen t turn out to rescue a man from a building where there was no fire. There really seemed no need of it, as the department is is not for every sort of work and has enough to do to attend to what properly belongs to it. But as the man seemed in danger of some kind and the messenger from the brewery evidently thought some of the means firemen employ for the rescue of persons from burning buildings were needed to help this unfortunate, several of the men went over to see what could be done.

"How did the man get in this fix?" I asked the messenger, as we were going to the brew-

He's been acting a little 'off' all day. This afternoon, after he had moved about restlessly for some time, he suddenly went to the window, got out, pulled the sash down and stood there.

"When some of them went to him he be came more agitated and tried to turn around as if he wanted to jump. It is only a narrow place he has to stand on, and he is holding on to the sash and tacing towards the room. It is pretty hard to keep in that position, and if he isn't helped out of it he will probably drop at last, even if he doesn't jump.

"We were afraid to do anything, for feat he would spring off, as he made an effort to turn round whenever any one approached. So we came to you, and thought you could know some way of getting hold of him '

The brewery was Koehler's, and it is on First avenue, between Twenty-ninth and Thirtieth streets. It is a large building, five stories high.

THE MAN WAS STANDING ON THE WINDOW-SILL When we got there, sure enough the man was standing on to the window-sill clinging to the sash. It was a difficult thing to do, and he probably would not have been as able to do it if he had been in his right mind. Running a ladder up was open to objec-

tion. It could hardly be done without attracting the man's attention, and, under the feeling that he was pursued, he would probably throw himself down to the street. He could not do this and escape a horrible death.

So several of us went up to the fifth floor It was occupied for some branch or part of the brewery business and there were some workmen there. They were watching the man, but kept at some little distance from the window. I got some of the men to go to the next window and quietly engage the man's attention, so that he would not notice what we were doing at the other window, the one where he was standing on the narrow sill, holding on to the sash.

The men did this. They managed to get him interested, so that he did not take notice of what we were doing inside. We removed the sorew from the frame holding the sash, keeping ourselves as much away from the window as possible. We got out all the screws, and then by a quick movement several of us whipped out the frame and let the lower half of the window fall in. We took that away as rapidly as possible, and succeeded in accomplishing this without exciting the man's notice. The men at the other window kept him interested as much as they could in what they were saying, and his very

condition prevented him from taking much | TO TRAIN MALE NURSES. notice of things unless they were brought

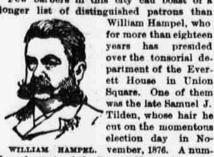

before him pretty strongly. The moment the sash and window were removed, three or four of the men grabbed him

by the legs! They held him so tightly that he could do nothing. He was pulled in, and though he struggled wildly when they had him in on the floor, there were more than enough to overpower him. .

Mr. Hampel was born in Germany fifty years ago and has been twenty-eight years in this country. He learned his trade in the old country, where it is required that a barbar shall understand something of surgery, and he knows all about cupping and dressing wounds in the old-fashioned way. He does not have much to do in that line now, and he devotes his spare time in the afternoons to cutting the hair of the children of his patrons. Many of the young swells whose cheeks he now smooths he used to lift into the high chair in years gone by.

After coming to this country Mr. Hampel first opened a shop in Fourth street, but soon after went into John Schrieber's establishment at the Fifth Avenue Hotel, where he remained until he succeeded Mr. Wusstlich at the Everett House. For many years he was also the proprietor of the barber-shop at Cozens's West Point Hotel. He owns considerable property in this city and lives in his own hous

NEW YORK TO HAVE THE PIRST INSTITU-TION OF THE KIND IN THE COUNTRY.

Built by D. O. Mills in the Grounds of Bellevue Hospital at a Cost of \$75,000-Mer to Be Instructed in Ministering to the ick as Women Are in the Existing School-Splendid Results Looked For.

In about three weeks New York will be provided with a training-school for male surses, the first of its kind in this country. It is the gift of Darius O. Mills and is sitated in the grounds of Bellevue Hospital. The vocation of the trained nurse first be-

came recognized when the Believue Training-School for Nurses was established nearly fourteen years aco. Since then similar in. st tutions have been founded all over the country. There have gone out from the Bellevue School nearly three hundred young women

who have received diplomas testifying to

their skill in ministering to the sick. Many

of these have been called upon to take charge

of hospitals elsewhere and all have good positions. But they have not achieved reputations as competent nurses without much hard, disagreeable work. One of the disagreeable hases of this life met a young woman from Florida a short time ago. She was extremely fastidious in her tastes. The first work that was given her to do was to wash and comb a burly and distressingly dirty colored

woman.

The energetic young nurse accomplished her task bravely. It is such tasks that try beginners hardest.

ginners bardest.

Notwithstanding the courage and devotion of these women, there are many cases where the need of male nurses is urgent.

Mr. Mills, already deeply interested in the nurse problem, became impressed last fall with the vast field in this calling open to men, and offered to build for the city a school in which young men could learn the profession.

The school will cost Mr. Mills about \$75,000. The building fronts on East Twenty-sixth street, near the river. It is opposite the school for women nurses, and is constructed of brick.

During his stay he will be paid a small salary besides getting his board, and will be expected to devote all his time and energy to study and practice in Bellevue Hospital.

THEY ARE THE CONSERVATIVES. Railroad Conductors May They Have Bee Misrepresented by the Press.

To the Editor of The World:

I find that the press in general, in their reports of the proceedings of the Order of Ratirosd Conductors of May 10 in the city of Toronto, have frontlack of proper information, given a wrong impression of the position of those who voted in the negative upon the question concurring with the report of the con mittee upon the Grand Chief Conductor's re port, and in order that justice may be done those who manfully stood up for principle, though by se doing it became necessary to condemn the action of publish this statement. The facts as given by the press have been perverted and misrepresent the case. The Grand Chief, in his annual report, used very strong and influminatory language against the Brotherhood of Locomotive Engineers, calculated to cause the two classes of men who are so closely allied in the performance of their duties to feel that they were arrayed against each other, and the delegates from the East and some portions of the West and South where no differences exist between these two organizations, believing that our Grand Chief should confine himself to the affair pertaining to the O. H. C., and destring to avoid doing anything to change the friendly relations existing in their sections, objected to that portion of the report that related to the strike, whereupon the Grand Chief, fearing to trust to the judgment of the delegates, left the chair and went upon the floor to defend his position, and used every argument possible to cause the delegates to believe that his report was all right. When, in spite of his efforts and the loyal support of his henchmen, he fleit the ground sinping from under him, he finished by saying that he should call for the yeas and nars, and presumed the record would show whowere conductors and who engineers, and there were sixiy-nine delegates who dared to criticise even a Grand Chief Conductor.

The Grand Officer, feeling that his position was wrong and desiring to suppress further opposition to his wishes, endeavored, through the press to make it appear that those who opposed this part of the report sanctioned the C., R. and Q. strike, and by so doing did a great injustice. We that are here know that those that composed the opposition are from those sections that are freest from strikes and differences of all kinds with their employers; in fact, are the conservative element of the Grand division, and if trouble should arise in their localidoing it became necessary to condemn the action of one who should represent the order, we ask you to

TORIES IN THE COBDEN CLUB.

fr. Thomas G. Shearman Sebuits a Few Corrections for Congress.

ISPECIAL TO THE WORLD. WASHINGTON, May 16, -Representative Bynum, of the Ways and Means Committee, has received the following letter relative to the famous Cobden Club from Mr. Thomas G. Shearman, of New York: /

OEAR SIR: Observing that Mr. Woodburn, of Nevada, understock to enlighten the House concerning the Cohen Club, and that you tuck part in the running debate, I beg to ask you too have a statement in the House in correction of his gross error in asserting that Mr. Balfour, the present Tory Irish Necrestary, is a member of that dub. He never was. No Tory seer is. No member of that dub. He never was. To Tory seer is. No member of concerning the third that the present Hogish Government is or ever was, as the total the tenders, the cinb was much too liberal for him.

Secretary Balfour, who is a member of the Cobden Club, is well-known Liberal and a stanch superior of Cludstone and Irish Home Rule. The two Balfour, are only distantly related and have never acted together in politics. The Cobden Club includes among its members all the noted advocates of home rule among Kngish states—new, and its managers are solid on that side.

It has also had among its members every member of Parliament who stood by the North during the civil war, and the men who founded it were the identical men who ran and the Trance on behalf of the rebellion, and who thus asved our country from destruction.

For an Irishman to abuse the Cobden Club is more ab-

struction.

For an Irishman to abuse the Cobden Club is more abused that to abuse Gladstone, because Mr. T. B. Potter, who is in fact the Cobden Club, declared himself in favor of Irish home rule before even Gladstone did. Your obediently,

the Story About Her Brother. [SPECIAL TO THE WORLD.] CHICAGO, May 16. —J. I. Case, of Racine, Wis., owner of the celebrated trotting horse Jay-Eye see and uncle of Mrs. Beem, came from Racir o-day to look after his niece's troubles. He as sured her that she should have all the financial support she needed, and a home and an income of \$5,000 a year as well. It is quite likely that she will make her home with him. In an interview to day Mrs. Beem denied emphatically that ner day Mrs. Beem denied emphatically that ner brother, Gus Case, had anything to do with her husban's death, and reasserted the old story of suicide. The Union Veteran League are fully satisfied they say, that Gen. Beem was murdered. They will not admit that there is any doubt of this. They will not carry on the investigation any further, however, but will turn over the evidence they have collected to the Nobraska authorities and ask for some action by them. It is understood that inquiries are now being pushed at Stanton on

that inquiries are now being pushed at Stanton on the lines indicated by the veterans' committee. Public sentiment nere is now to a considerable extent on Mrs. Beem's side, and it is not generally believed that she was the cause of the General's death. On Their Cruise Around the World. The British steam yacht Lancasbire Witch, Capt. James, arrived yesterday from the West Indies via Charleston. She sailed from Portsmouth, England, Jan. 4, in command of her owner, F. L. James, on a pleasure trip with a select party consisting of Mr. W. D. James, the Earl of Scarborough, Hon. W. Ponsonby and J. Balley. After calling at Madeira and the Canary Islands, and touching along the and the Canary Islands, and touching along the west coast of Africa, the party crossed over to the West Indies, visiting Dominica, Barbadoes, Trinidad, Aspinwall, Havana and other ports, and came to this port, calling at Charleston on the way. The party are all in excellent health. The yacht is built of wood, barkentine rigged and 479 tons register, and belongs to the Royal Yacht Squadron and other yacht dubs. Her crew numbers twenty-seven officers and men.

Small-Pex on Staten Island. John Bendert was found on Staten Island yesterday wandering through the streets while suffering with a severe case of small-pox. To Dr. Feeney, the health officer, he said that he left Philadelphia on Monday and had spent the night with a friend in Tompkinsville, but refused to disclose the name of his friend or the location of his house. The patient was sent to the County Hospital and the police were given the task of finding and disinfecting the house where he slept. The case created considerable excitement on the island, which has but recently recovered from a severe visitation of this disease.

They Elected a Dead Man.

At the last annual town meeting in Southamp ton, L. I., Louis Bowden and A. H. Reeves were candidates for Town Clerk. Bowden received the greater number of votes, but he died before the polls were closed. Still, he was declared elected. The Justice ignored any claim which Reeves might have to the office and appointed W. J. Post to the position. Reeves, however, claims that he was the only eligible candidate voted for, as his opponent died before the voting caused, and that the declaration of the election of a dead man to office was illegal. He claims the office, and the question of his right to it is agitating the people of the town.

A number of charitable colored women gave a reception for the benefit of a hospital on Nov. 17, 1887. Mrs. Anna Harris, well known among the colored people for her charity, then conceived the idea of estab. lishing a Home for poor and friendless col-

She spoke to Mrs. Susan E. Webb, and they concluded to consult with several wellknown colored women and the Rev. Dr. W. B. Derrick. The result was that an organization known as the Women's Charity and Industrial Club was formed, with the following named officers: Mrs. Susan E. Webb, President; Mrs. Mary E. Lewis, Vice-President; Miss Elizabeth Lowe, Secretary; Mrs. Ja e Chase. Financial Secretary: Mra. Matilda Wynn, Recording Secretary: Mra. Susan Hackett, Treasurer: Mrs. Anna Harris. Head Matron and Founder, and the Rev. W. B. Derrick Guardian.

They secured the handsome four-story brown store front 137 West Thirty-second street, and soon it was remodelled and a brand new sign hung out which read, "Home for the Friendless."

The object of the club is to give support to the poor and friendless young girls of the colored race.

On the ground floor of the building is the kitchen and dining-room. On the first floor are two large, neatly fitted up parlors, with all home comforts. The house is old-fashioned and has big stairways.

The second floor is fitted up as one big meeting-room, with desks, tables, chairs and an organ.

It is the hope of the founder to restrictly.

The second floor is fitted up as one big meeting room, with desks, tables, chairs and an organ.

It is the hope of the founder to materially increase the funds of the club by letting this meeting room to colored associations. The upper floors are devoted to bedrooms.

Mrs. Harris, the founder, said to an Eventual Wolld of the expenses of the Home will be met by subscriptions and the initiation fees and dues of the members. The initiation fees and dues of the members. The initiation fee is \$2. The dues are 22 cents monthly. We will take care free of cost of the homeless colored girls in this city and find employment for them. We will give a May festival here on the 25th of this month. Several readers—among them Miss Mattie L. Horton—and soloists will appear. We hope to realize quite handsomely by this."

A few of the 400 members of the Women's Charitable Aid Industrial Club are Mrs. Amanda Seaman, Mrs. Melinda Coles, Miss Angelma Cornell, Mrs. Rogers, Mrs. Margaret Chambers, Mrs. Thomas and Mrs. S. M. Lee.

Caleb L. Crocket, the clerk who was arrested last week for stealing \$9,000 worth of diamonds from his employer, Jean G. C. Cottler, the dia mond broker at No. 171 Broadway, was taken before Judge Gildersleeve, in General Sessions, yesfore Judge Gildersleeve, in General Sessions, yesterday. The prisoner confessed his guilt and pleaded guilty. The case was hurried, as Mr. Cottier, the complainant, had arranged to sail for Europe. The prisoner, who is thirty-two years old, esme of an old and highly respected family in Newark, N. J., and a bundle of amdavits and letters nearly an inch thick was presented to the Court asking that he be treated leniently. The complainant joined in the plea for mercy. There were also letters from ex-Surrogate Rollins and Frederick S. Flah, of Newark, N. J., ex-Presidents of the New Jersey Senate. Judge Gildersleeve auspended sentence and discharged Crocket.
